FINANCIAL AND COMMERCIAL.

WALL STREET, 1
TUESDAY, June 20-6 P. M. (
On 'Change to-day wheat was heavy and lower. The cotton market was a shade lower, but steady. ADVANCE IN FOREIGN EXCHANGE.

The entire disappearance of all effort to render eash gold artificially scarce has turned the attention of the importers to the foreign exchanges once more, and the demand for bills has led to a further advance in rates, particularly as the supply on commercial account is just now guite limited. The upward turn in rates was also lounde | upon an anticipated demand for bills to remit against European coupons now expected by every steamer, and was also helped by the recurring scarcity of the larger denominations of gold coin, as high as 5-32 premium being asked for double eagles over mixed and ordinary small coin, such as would be paid out by the Sub-freasury on presentation of certificates. The range of present quotations is shown in the following:—Sterling, sixty days, commercial, 100% a 110%; good to prime bankers', 110% a 110%; short sight, 110% a 110%; Antwerp, 5.22% a 5.16%; Switzerland, 5.20 a 5.15; Hamburg, 35% a 36 1-16; Amsterdam, 40% a 41; Frankfort, 40% a 41; Bremen, 78% a 70%; Prussian tha ers, 71 a 71%.

MONEY TWO TO FOUR PER CENT. There was no essential change in the rates for money, but a slight fluctuation was again perceptible between early and late engagements. At the usual hour loans on stocks were made quite freely at three and occasionally at four per cent, with two to three per cent as the rates on government collaterals. But toward three o'clock there was more disposition to pay four per cent, which is explained, perhaps, by the enormous dealings of the past few days in some of the clique specialties, which have compelled the operators in these stocks to enlarge their temporary requirements in the way of money in order to see their speculation to a conclusion. The abundance of money in the city just now is amply sufficient, however, to meet every exigency so long as the confidence of lenders re-mains unimpaired. It is only when distrust begins to be entertained as to the safety of lending money on stock collaterals that any contraction in accomsuch "breaks" as occurred to-day in the case of Consolidation Coal, which ratted down ten per cent almost in as many minutes, this confidence might not easily continue. But fortunately Consolidation Coal is a rarity in collaterals, although just as dangerous stuff may be unwittingly accepted by lenders

every day.

Prime mercantile paper is in good request, out scarce. Makers leave it with the brokers for discount at 41/4 a 51/4 per cent, and buyers readily offer to take it at 5 a 6 per cent, the result being an occasional transaction at the intervening rates. GOLD DULL-112% A 112%.

The gold market was dull and devoid of new feature, except, perhaps, in the better inquiry for cash gold, which hardened rates in the loan market, but otherwise produced no effect. There were but two fluctuations in the price of gold all day, and the changes upon these are shown in the table:-

 In the gold loan market the rates ranged from 3
 per cent for carrying to 1-64 for borrowing. The operations of the Gold Exchange Bank were as fol-

gagements of specie for to-morrow's steamer were quite moderate. Lardiy exceeding \$200,000.

GOVERNMENTS IRREGULAR. The government list opened quite bouyant and prices advanced a fraction all round; but the improvement induced realization, and toward the close a reaction occurred in most of the more speculative issues, the market closing strong, however, at the new scale of quotations, which, in final street dealings, left off as follows :- United States currency sixes, 115 a 115 %; do. do., 1881, registered, 114 % a 114%; do. do., coupon, 117% a 117%; do. five-twentles, registered, May and November, 112% a 112%; do. do., 1882, coupon, do., 112% a 112%; do. do., 1864,

respect, a striking contrast to the brilliant movement in Rock Island, one of the exceptions alluded to. The business of the day, such as it was, was diversified by two exciting incidents-a sudden fall ten per cent in Consolidation Coal and an advance of five per cent in Rock Island. The coal stocks have for some months past been unusually prominent on the Stock Exchange in consequence of the manipulations of a clique organized to unite the interests of several rivat Maryland companies and market the consolidated stock at high figures—the long strike in the Pennsylvania regions affording a sufficient pretext e alleged enhanced value thereof. solidation coal" is already a consolidation of a number of small companies, but the process of absorption was to have been extended. The pool having been organized the price of consolidation was advanced to 54% as against 20 a 25 last January, but for a few weeks "something" has been going wrong. As usual in such cases some of the pool sold out upon the others, and the discovery of this treachery produced a "break" to-day from 51 to 40%. Maryland Coal, which had been carried up to 41 dropped to 33, and the only asked. This decline paralyzed the rest of the market and occasioned a boit even in Rock Island. which, starting out at 126 fell off to 125%, the effect being operative on the general list and rendering it dull and heavy, even when, later in the day, Rock Island was skyrocketed up to 1301/2. This latter sharp rise is the direct result of a clique operation, and perhaps can be carried indefinitely up all the stock requisite to secure them against any outside influence. At one time it was reported that the leader of the Eric party, who was reputed "short" of 10,000 shares, had settled at 130. Hereupon the price fell back to 128, but was again advanced to 130, and kept so for the remander of the day, that price being bid for the stock deliverable in the usual way, while large amounts were being offered at 125 seller, sixty, and at 126 seller, thirty days. The whole movement in this stock has been very finely managed, although doubts are freely expressed as to its final success, for the reason that the outside public are not buying it, and the clique, in squezing the "shorts," are compelled to buy enormous quantities of "long" stock from the outsiders, who are quietly taking their profits the part of the clique. In this way they are being gradually saddled with all the stock in the market. force the covering of they are compelled to buy a thousand shares of long stock at what are evidently stocks just now, and as the clique have frightened the "bears" into doing nothing, the future of this lem as to what they will do with their load. In Consolidation Coal when the public stopped buying the clique had to deal with each other. It will be remembered that care has been taken in this column to omit all reference to the numerous rumors of a scrip dividend on Rock island, which were so freely circulated for effect upon the market. Refusal has been given to the publication of these reports for the reason that they are disproved by the lact that the constitution of

A SLANDEROUS SCHOOL TEACHER. - A slander suit. which occupied the attention of the Supreme Court, before Justice Murray, now in session in this city, yesterday afternoon and a part of the forenoon toyesterday afternoon and a part of the forenoon to-day, has attracted considerable attention. It was an action brought by a young woman named Harriet A. Smith against a school teacher named Benjamin Burrows, who was guilty of copying some doggerel verse which had been written by another and pasted in his school house. The case has some disgussing phases, which we cannot report. The jury, after some consultation, brought in a verdict of \$1.500 in favor of the plaintiff, thus completely vindicating her character. Some of the jurors were in layor of awarding her \$10,000. The author of the scandalous verses is a brother-in-law of the young woman, and a suit has been brought against him, which is still pending in court.—Burguamton (N. Y.) E publican, June 19.
